Experience

Spatial Front, Inc. [🔗](#) | Remote | Feb 2021 – present

(Government-contract IT solutions provider specializing in geospatial technologies)

Team Lead/Architect (Apr 2022) | **Front-End Technical Lead** (Sep 2021) | **Software Engineer** (Feb 2021)

- Led software development of two systems (detailed below) for the U.S. Department of Agriculture, successfully deploying critical conservation-mission solutions relied upon by 2,500 USDA field offices and 15,000 monthly active users
- Directed 20 professionals across two cross-functional teams, providing guidance and mentorship to engineers, testers, designers, and business analysts

Project: *Conservation Practice Documents - Document Management System* (.NET 6, React, MS SQL Server, MS SharePoint)

- Spearheaded the turnaround of a stalled development initiative, realigning the team to deliver a modernized system that retired legacy software and saved \$300,000 in annual licensing fees
- Architected a relational database schema powering a document publishing workflow engine that handles 60,000 documents across 16 configurable workflows and 53 document types

Project: *Field Office Technical Guide* (.NET Framework, React, MS SQL Server, Elasticsearch)

- Built an Elasticsearch-powered search engine that indexed 160,000 documents, enabling users to perform full-text searches across the entire document repository
- Designed and implemented batch operations, dramatically accelerating content management workflows by enabling 25 simultaneous actions
- Modernized the entire React codebase by migrating to functional components and custom hooks, achieving 78% reduction in average component size while improving maintainability

Independent Project Work [🔗](#) | New York, NY | Mar 2020 – Feb 2021

- Project: Definitely Not Reddit — Reddit clone with user authentication, embedded media content posts, meta link previews, and comments
- Project: Melody Chuang Coaching — Professional small business website with contact forms and social media widgets

The Recurse Center [🔗](#) | New York, NY | Jan 2020 – Mar 2020

(Community-driven, self-directed educational retreat)

Programming Sabbatical

- Self-studied programming fundamentals and full-stack web development in an immersive environment with 35 fellow programmers ranging from novices to experts
- Collaborated with peers in dozens of pair programming sessions and presented 3 talks to foster knowledge sharing

NYU Langone Health [🔗](#) | New York, NY | Mar 2014 – Jan 2020

Senior Financial Analyst (Aug 2017) | **Financial Analyst** (Mar 2014)

- Oversaw financial management of research activities at the Neuroscience Institute, playing a pivotal role in expanding funding from \$20M to \$40M in 6 years
- Pioneered a proprietary financial modeling system using MS Excel, providing cutting-edge analytical and strategic decision-making capabilities to 32 research labs

Community

Code Nation [🔗](#) | New York, NY | Oct 2022 – May 2024

(Non-profit providing coding education to under-resourced youth)

Volunteer Instructor

- Taught introductory HTML/CSS/JavaScript to classes of 15-20 students at NYC public high schools in twice-weekly virtual and in-person sessions
- Built up competence and curiosity in students under-represented in tech, resulting in 67% of alumni entering a STEM-related field compared to 8% population baseline
